

Job Description

DevOps Engineer (m/f)

parlamind is developing the future of intelligent communication. With the use of artificial intelligence we help companies successfully process the whole spectrum of communication and operations. For this purpose, our international team of software specialists and linguists is developing a business-communication solution based on machine learning and natural language processing. We are part of a group of German technology companies driven by innovation.

As part of our Backend Team you are responsible for automatic deployment of our modern and innovative software solutions. You work on deployment strategies for cloud and on-premises solutions. You help to operate and monitor the platform. Our work is based on the current state-of-the-art for containerized, scalable software architectures. Together, we deliver cutting-edge technologies to our customers.

Your Tasks

- Design, develop, and test automated deployment strategies (cloud and on-premises)
- Active contribution to our innovative technology stack (mainly Java, JavaEE, Python)
- Support monitoring and operation of the platform
- Get involved and actively contribute to the design and implementation of our solutions
- Stay up-to-date with trends and news in the area of dev ops

Your Profile

- You have a qualifying degree in the area of Information Science or another related technical area or equivalent practical experience
- You have good expertise with automated deployment processes by using tools such as Docker, Maven, Jenkins, Ansible, Grafana, a.s.o.
- You are motivated, reliable, detail oriented, and eager to participate in the development of our products
- You value active teamwork
- You speak fluent English, German is a plus

Your Benefits

- A varied, exciting job with a high degree of individual responsibility awaits you
- You will be able to actively shape our innovative technologies
- You will be part of a motivated, international team with flat hierarchies and communication at eye level
- Space for creativity and realisation of your ideas and projects and a great workplace in Berlin Kreuzberg

Further Information

- Location Berlin
- Start at the next possible date
